WORK EXPERIENCE

Software Developer 🔗
Destech Hasar (RS Otomotiv) – İstanbul
Jan 2023 – Present
- **Contributed to the development of more than eight applications**, primarily focusing on three key projects.
- Maintained and enhanced backend services while working with **GraphQL**, **Socket.IO**, and **Codemagic for CI/CD automation**.

Full-Stack Software Developer 🔗
CatchPad – İstanbul
Jul 2022 – Jan 2023
- **Solely responsible** for product development, including the web **frontend**, **backend**, and **mobile application**.
- Utilized **BLE connections** for device communication and created **game algorithms**.
- Leveraged **Firebase** for rapid development and robust backend solutions.

Mobile Developer 🔗
Nox Digital – İstanbul
Sep 2021 – Jun 2022
- Developed **four mobile applications**; two were successfully published.
- Integrated technologies such as **Socket.IO**, **GraphQL**, and **VoIP** for advanced functionalities.
- Contributed to seamless team collaboration as a full-time Flutter developer.

EDUCATION

Kocaeli University
Bachelor of Computer Engineering | 2017 – 2022

SKILLS

- Programming Languages & Frameworks: **Flutter**, **Laravel**, **Python**, **Svelte**
- Technologies: **REST API**, **GraphQL**, **Socket.IO**, **Firebase**, *BLE Communications*
- Development Tools: **Codemagic (CI/CD), Version Control (Git)**
- Languages: **Advanced English**

PROJECTS

Otokonfor – Otokonfor Workplace
- Technologies: **Flutter, Laravel**
- Currently engaged in the development of **two applications** for customer and service use.
- Employed REST API for backend infrastructure and seamless app performance.

TurAssist – TurApp
- Technologies: **Flutter, Laravel, GraphQL**
- Developed TurApp using GraphQL for data access and supplementary REST API integration.

CatchPad – CatchPad
- Technologies: **Flutter, Firebase, JavaScript**
- **Solely developed** the mobile app, **managed the website**, and initiated backend development.
- Transitioned to **Firebase Firestore** for resource-efficient development in a startup environment.

Lebib Yalkın – MevBank
- Technologies: **Flutter, Laravel, GraphQL**
- Independently developed the mobile application, **designing** the foundational template.
- Gained insights into the legal industry and subscription-based payment systems.

Taksidepos – TaksiMaxi
- Technologies: **Flutter, Laravel, REST API, Socket.IO**
- Independently developed and designed the core structure of the mobile app.
- Contributed to the service industry with innovative solutions.

Sembol Nakliyat – Sembol
- Technologies: **Flutter, Laravel, REST API**
- Revitalized the mobile app by collaborating with a team of three developers.
- Acquired operational knowledge in the transportation industry.
